

451362-1 SR 25 / US 27 at Sebring Parkway Safety Project / Intersection Improvements

PROJECT OVERVIEW

FDOT has identified the need for safety improvements to State Road 25/US 27 at Sebring Parkway in the City of Sebring, Highlands County. The project goal is to improve pedestrian safety and reduce crashes.

The design consists of improvements to the existing traffic signals, lighting, signing and crosswalks at the intersection. The crosswalk improvements will shorten the crossing distances by adding a pedestrian island and minor changes to the roadway geometry. A raised median will also be constructed in place of the bidirectional left turn lane on Sebring Parkway to reduce conflicts between vehicles.

The Florida Department of Transportation (FDOT) is hosting a public meeting for the State Road 25/US 27 at Sebring Parkway Project in Highlands County. The public meeting will be held on October 28, 2025, at the Jack Stroup Sebring Civic Center, 355 W. Center Ave., Sebring, FL, 33870. The in-person meeting will be an open house format from 4:30 pm to 6:30 pm.

In addition, a virtual/online meeting will be held on Thursday October 30, 2025, with a presentation from 5:00 p.m. to 5:15 p.m. and a question/answer period from 5:15 pm to 6:00 pm. Please register in advance for the virtual/online meeting at <https://attendee.gotowebinar.com/register/184609552090767197>.

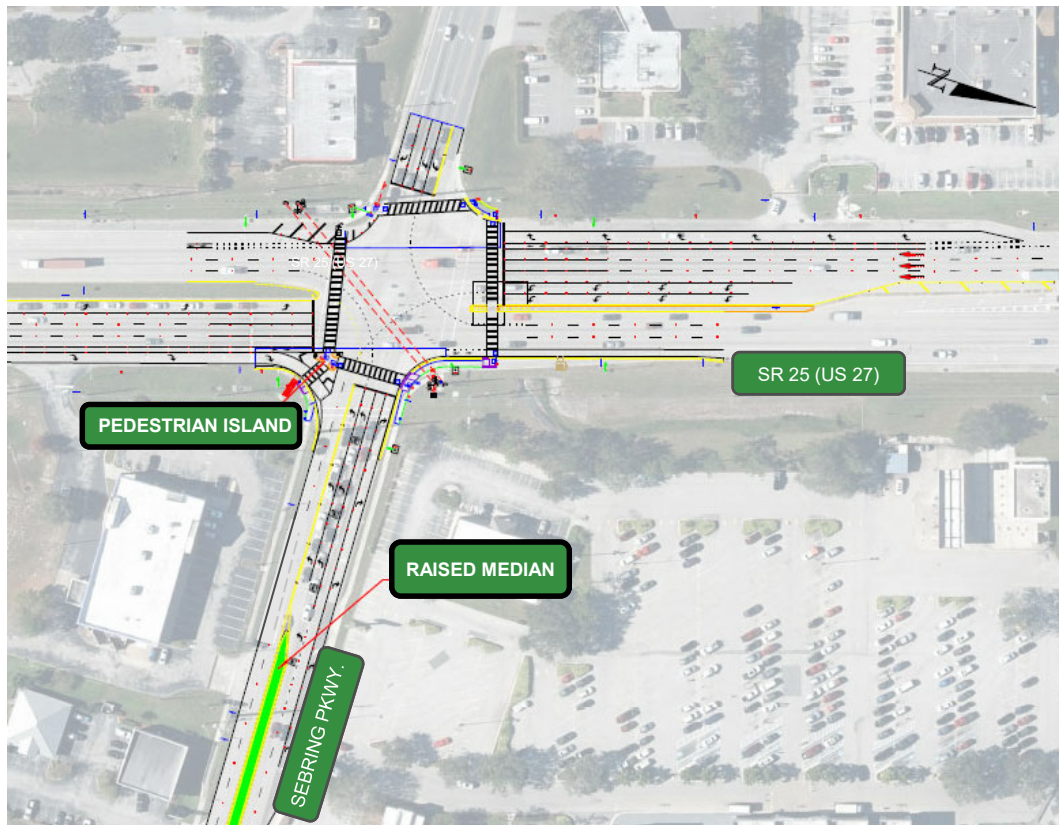

Project exhibits will be available at the public meetings. If you cannot attend the meetings, you can review the same exhibits on the project website and provide your comments to the FDOT Project Manager.

WE WANT TO HEAR FROM YOU!

After reviewing the public meeting materials, and/or participating, you may submit comments in three different ways:

- Through links on the project website,
- Emailing the FDOT Project Manager, Ulises Valles at Ulises.Valles@dot.state.fl.us,
- Mailing comments to Ulises Valles at FDOT District One, 801 N. Broadway Avenue, Bartow, FL 33830

Conceptual Plan

While comments about the project are accepted at any time, please note that comments must be received or postmarked by November 17, 2025, to be included in the formal public workshop record. A summary of the workshop comments and responses will be available on the website approximately 30 days following the close of the comment period.
